Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 16-35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is noted that the preamble of the claims references a recovery method, however the body of the claim lacks any recovery method steps, and instead appears to be being directed to an apparatus. In claim 29 lines 2-3, "the structural support members" lacks proper antecedent basis. In claim 34 lines 2 & 3, "the end" lacks proper antecedent basis.

Claim Objections

Claims are objected to because of the following informalities: In claim 21 line 5, claim 30 line 3, claim 32 line 5, "or" should be changed to "and". Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 16,18,19,20,21,26,28,29,30,31,35 as best understood, are rejected under 35 U.S.C. 102(b) as being anticipated by Pobihushchy (5,408,766).

Pobihushchy discloses a mobile vacuum boring and mud recovery apparatus including a vacuum debris container 13, and a liquid storage container 27, with the vacuum debris container being mounted at an inclined slope 14 sufficient to allow the liquid storage container to be mounted below the incline of the vacuum debris container as shown in figure 4. Pobihushchy further discloses a support base (considered the vehicle frame), and a boom 40. The section of the boom at 41 is considered an elbow.

Allowable Subject Matter

Claims 22-25,27,32,33,34 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 17 is allowed.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
